Engineer (General), MLC 1-7
Task List

1. As a junior Project Design Engineer (PDE) completes design packages, for construction award by a Contracting Agency, or engineering studies which meet Customers' requirements through the hiring of an Architect-Engineer (A-E) consultant. Prepares contractual scopes of work and government estimates, serves on pre-selection, selection, and fee negotiation boards either as a member, recorder, or chairperson and maintains liaison between customer, program manager, contracting officer, and A-E consultant. Reviews checks and provides direction to A-Es on design submittals for conformance to design manuals, criteria, codes, guidance, and good engineering practice. Coordinates the review of other engineering disciplines on the designs or studies with other architect/engineer branches within the division. Prepares all necessary correspondence and works in close liaison with contract division personnel, program managers, and customers in the coordination of A-E contracts and serves as the Contracting Officer's Technical Representative (COTR). Verifies full contractual completion of engineering design or study and evaluates A-E performance. Prepares contractual specifications for design-build projects. Above duties performed in conjunction with training wherein the incumbent is becoming familiar with the various laws and regulations pertaining to A-E contracting and the various tasks and documentation required to conform with this guidance. The incumbent works under the direct supervision of a senior PDE or the A-E design division supervisor. (80%)
2. Provides consultation for engineering matters to personnel from Staff Civil Engineers (SCE), Activity Civil Engineers (ACE), various Customers, other NAVFAC FE departments, and other engineers within the NAVFAC FE Capitol Improvements Department. Performs field investigations with customers in determining scope of work for preparation of planning documentation for special projects. Investigates and resolves problems; performs studies and recommends engineering solutions to correct deficiencies or to meet new requirements; prepares engineering reports, cost estimates, analysis and justification data. Coordinates post construction award services (PCAS) between A-E consultant, the construction contractor, and the ROICC offices for reviews and evaluations of construction contractor's submittals. (15%)
3. Performs other related or incidental duties as assigned. (5%)
